

BIOHEAT® FUEL FACT SHEET FOR EMPLOYEES

Quick facts to keep on hand when you are talking about Bioheat® fuel with your coworkers or customers.

Bioheat® Fuel Basics

- Bioheat® fuel is made by blending renewable biodiesel with traditional heating fuel.
- Right now, we deliver ____% biodiesel blend Bioheat® fuel.
- Bioheat® fuel is readily available in New York State.
- Bioheat® fuel can be used in existing heating systems, without the need for expensive conversions.

Bioheat® Fuel and Cost

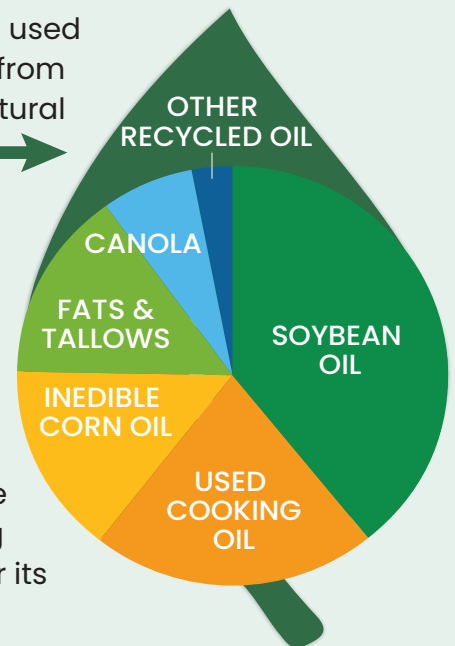

- Bioheat® fuel requires no expensive conversions to use in traditional heating systems.
- Bioheat® fuel is priced at an affordable price per gallon just like other liquid heating fuels.

Bioheat® Fuel and Our Economy

- The Bioheat® fuel industry supports more than 62,000 jobs in the US.
- The Bioheat® fuel industry employs more than 8,000 full-time employees in New York.
- Bioheat® fuel is delivered by more than 700 local businesses in New York.

Bioheat® Fuel and the Environment

- Bioheat® fuel is renewable because biodiesel used to make it comes from renewable agricultural by-products. 
- Bioheat® fuel reduces SO_x, CO₂, particulate matter, and mercury emissions.
- Bioheat® fuel is the only liquid heating fuel that can lower its carbon emissions.
- The Bioheat® fuel industry has pledged to reach net-zero carbon emissions by 2050 following this timeline:
 - 2023: B20 (20% biodiesel blend)**
Bioheat® Fuel
 - 2030: B50 (50% biodiesel blend)**
Bioheat® Fuel
 - 2050: B100 (100% biodiesel)**
Carbon-Neutral Bioheat® Fuel
