

SOLIDARITY IS STRENGTH.

Bioheat® Fuel Is the Best Option for Us and Our Customers

Traditional fossil fuels are under attack. It is critical for companies like ours to be a part of the renewable energy conversation to:

PROTECT THE
CUSTOMERS
WE SERVE

PROTECT
OUR
INDUSTRY

PROTECT
OUR
JOBS

BIOHEAT® FUEL

is the low-carbon solution that can really make a difference, **and it's up to us to make sure our customers know that.**

Bioheat® Fuel Available & Affordable

All heating fuel in New York is Bioheat® fuel. Customers can use Bioheat® fuel in both new and existing heating systems without additional costs.

Bioheat® Fuel Is Easier on the Environment

Bioheat® fuel is low carbon and will continue to reduce its carbon content as blends of biodiesel increase. Bioheat® fuel is actually the only heating fuel on the market that can do that!

Bioheat® Fuel Supports Local Business

The Bioheat® industry supports local farmers who grow products used to make biodiesel and the fuel companies that deliver it so that we can continue to exist and thrive in a renewable future.
